The objects and fabrics in this show were selected from the comprehensive design exhibition arranged this fall at the Detroit Institute of Arts, by Alexander Girard, and devoted to things "FOR MODERN LIVING". The Department of Architecture and Design of the Museum of Modern Art, in making this selection from the Detroit exhibition, excluded the large number of objects which have been exhibited repeatedly here in the past and are therefore familiar to our audience. The Detroit show "FOR MODERN LIVING" contained probably the largest group of well designed objects shown in the United States in recent years, and thus enabled us to make the broadest possible selection in keeping with high esthetic standards. Since the primary criterion of selection for this design show was esthetic, the objects displayed are not necessarily within a certain price range. Most of them do, however, fall within a popular price bracket.
