

# Activity Card

**FIND** *Unique Forms of Continuity in Space*, by Umberto Boccioni, on the fifth floor of the Museum.

**DRAW!**

**WALK** around the sculpture. What do you notice about the figure? How would you describe the action the artist was trying to show?

Boccioni tried to capture a figure in motion.

**ACT** out the movements this figure would make if it came to life.

**SCULPTURE**

**SKETCH** the sculpture from two different sides. Zoom in on a detail or draw the whole figure. What did you notice?
