AUGUST OPENINGS

Aug. 3- GLAMOUR PORTRAITS. An exhibition of about 45 prints, dating from about 1850 to the present, by 12 photographers who have helped define our changing notions of what a beautiful woman should look like. The selection is concerned with "mythical" women, the photographer's invention of beauty, not with specific beautiful women. Selected by John Szarkowski, Director, Department of Photography. 1st floor, gallery 6.

Aug. 10- MASUO IKEDA PRINTS. Born in 1954, Ikeda is one of the most promising artists in any medium in Japan today. A spirit of fantasy and sharp satire, as well as his choice of engraving and drypoint, clearly distinguish his prints from the tourist production of woodcuts which so often travel abroad as souvenirs from Japan. Directed by William S. Lieberman, Curator, Department of Drawings & Prints. 1st floor, gallery 5.

A selection of musical instruments developed in the last ten years by the French sculptor, Francois Baschet, and his brother, Bernard Baschet, an engineer. The sounds of the Baschet instruments, though often similar to those produced by electronic means, are made by mechanical processes only: vibrations of metal elements energized by percussion; the sound is ampli-
